(9) Violates Executive Orders	NO

11988 or 11990

(10) Violates Law

NO

Comments on the exceptions listed above:

There are no issues that would require additional review prior to approving the allotment transfer.

Categorical Exclusion Review (CER)

Compliance and assignment of Responsibility: John Whitmer – Rangeland Management Specialist

Monitoring and assignment of Responsibility: John Whitmer – Rangeland Management Specialist.

Required Stipulations:

Standard grazing stipulations listed on applicant's grazing permit.

I have reviewed the proposed action using the Categorical Exclusion Review (CER) process described in BLM Manual H-1790-1 pages II-1 and II-2 and appendix 4. The proposed action does not seem to conflict with major land-use plans and will not have major adverse impacts on other resources. Therefore, it does not represent an exception, and is categorically excluded from further environmental review.
